

PEUGEOT **PARTNER VAN**

PEUGEOT

FROM PROFESSIONALS TO PROFESSIONALS

When you choose the New Partner, you're choosing more than a simple van. You're buying a vision, Peugeot's vision, created to satisfy the requirements of you and your drivers. This is based on real, practical benefits that will help you get the most out of your investment: carrying capacity, flexibility, driving pleasure, style and

low running costs. These are the qualities of a true professional, always ready and willing to get the job done.

A VERSATILE RANGE

All professionals and organisations have different needs. That's why we've made New Partner available in a variety of specifications

• Body shapes

Tailor your New Partner to suit your business. Choose from two vehicle lengths, two load volumes and two load lengths, a big step forward in the flexibility and choice offered by the Peugeot small van range.

• Doors

Choose your New Partner's door layout to make getting your stuff in and out of the load space really straightforward. You can choose either one or two sliding side doors*, and the asymmetric hinged rear doors can be panelled or glazed.

- **Platform cab version.**

Need a refrigerated van with removable chiller compartment, or a van designed for the construction industry? New Partner offers an excellent base for converters, allowing you to adapt the vehicle to your individual requirements.

DIMENSIONS TO SUIT YOUR REQUIREMENTS

The Partner has been designed to make life easier. Its external dimensions reflect a successful balance between interior volume, accessibility, handling and agility, making Partner the ideal vehicle to suit your requirements.

OPTIMAL INTERIOR SPACE

The Partner has class leading internal dimensions. The usable floor lengths range from 1.8 - 3m (or 2.05 - 3.25m with the optional folding Multiflex Passenger Seat). There is a maximum width of

1.6m and a width of 1.23m between the wheel arches, allowing 2 Euro pallets to be loaded lengthways.

(1) Version longue.

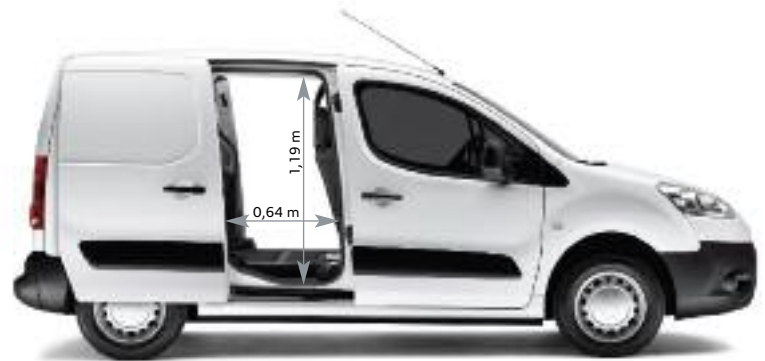

Load Lengths :

L1 :Version from 1.8m to 3m

L2 :Version from 2.05m to 3.25m
(longer lengths with folding Multiflex passenger seat)

DOORS THAT MAKE LOADING EASIER

At the rear, the asymmetric rear doors which can be opened to 90 or 180 degrees make loading easy. Side loading doors can be fitted as an option to one or both sides of the vehicle and the high position of the rear lights help them to avoid day to day knocks.

A WELL DESIGNED LOAD SPACE

THREE POSSIBLE PAYLOADS

The Partner offers 3 payload options: 625kg or 850kg in the L1 version or 750kg in the L2 version.

GREAT ACCESSIBILITY

The Partner has been designed to be functional and easy to use. The generous dimensions of the load area ensure no space is wasted.

The low load sill allows ease of loading, further improved by the hinged rear doors which open to 180 degrees to reveal a practical, squared aperture.

EXCEPTIONAL FLEXIBILITY

There are 6 stowing rings on the floor of the Partner's load area to ensure that loads remain secure on the move. It is fitted as standard with a ladder protector behind the driver and has a number of full and half height steel bulkhead options.

Volume

from 3.3 to 3.7 m³ in the L1 version and 3,7 to 4,1 m³* in the L2 version.

Payload

625 kg or 850 kg in the L1 version
750 kg in the L2 version

*longer lengths with optional Multiflex seat

1.

2.

3.

4.

5.

1. Protective ladder to offer protection in the event that the load shifts is standard behind the driver.

2. Half height bulkhead with mesh grill

3. Bulkhead with load access door to allow the folding Multiflex passenger seat to be used to full effect.

4. Hinged rear roof flap which allows for the transport of very long items with the rear doors closed.

5. Locking bolt for the larger rear door to enable the smaller rear door to remain open in transit (with fully secured loads).

FLEXIBILITY WITH THE INNOVATIVE MULTIFLEX PASSENGER SEAT

Choose how you use New Partner's interior space to stay one step ahead. Its unique modular Multi Flex passenger seat, standard on SE models, allows you to increase your load capacity and storage length by using the passenger seat area. For example, the side seat folds completely flat to free up a continuous flat floor, which runs the length of the van. Your New Partner can then accommodate loads up to 3m long (3.25m on the long model).

The cushion of the side seat can also be raised to allow tall loads to be carried in the cab area. And if you need to make notes or catch up with paperwork, the backrest of the middle seat converts into a handy writing table, while lifting up the seat cushion provides access to a hidden storage space.

1. Thanks to the Multi Flex passenger seat, plus a central seat for occasional use, the New Partner can seat up to two passengers.

2. The cushion of the side seat lifts completely to carry tall loads.

3. The side seat retracts fully. Long loads can be slid easily into place without encountering any uneven surfaces.

4. Single Passenger seat configuration. The height adjustable driver's seat is fitted with an armrest and storage drawer beneath the seat. The passenger seat backrest can be folded to make a table.

EVEN MORE FLEXIBILITY WITH THE L2 VERSION

With a load volume ranging from 3.7m³ to 4.1m³ and a load length from 2.05m to 3.25m (with the multiflex seat), the L2 Partner can easily accommodate your load carrying requirements.

CARRY 5 PEOPLE WITH THE PARTNER CREW VAN

Based on the L2 version, the Crew Van has a folding rear bench seat to offer greater flexibility and the option to carry up to 5 people. The fully integrated mesh bulkhead folds with the seat to create a 1.8m load length.

1. In place, the rear seat carries 3 people.

2. Folded away, it quickly creates an increased load space of 3.3m³

WORK IN COMPLETE COMFORT

Running a van no longer means you have to compromise on your driving enjoyment and comfort. A trip computer and electric front windows are equipped as standard, and the Visibility Pack* (automatic windscreen wipers and automatic headlights on) and folding door mirrors* add extra convenience. If you spend a lot of time in the city, the New Partner can be equipped with an optional rear

parking aid to help manoeuvre in narrow spots. With its wide, raked windscreen and large, sloping headlights, New Partner offers maximum visibility for driver and passengers.

Thanks to its efficient suspension, the drive is fluid and comfortable whether the vehicle is loaded or empty. The electric windows and

central locking are useful for both driver and passengers and the interior noise level is kept pleasantly low thanks to the insulated engine and chassis compartments.

New Partner is an entertaining place to be. The Partner's RD4 audio system has an output of 4 x 35 watts, separate adjustments

for bass, treble, balance and fader, and an MP3 compatible CD player and an RDS radio tuner. With a Bluetooth compatible mobile phone connected, you can make handsfree calls using controls mounted on the steering column. Number directories are displayed on the integrated dashboard screen. The combined USB socket allows portable MP3 devices (e.g. an iPod) to be

played through the vehicle audio system. Music can be selected by album, track, playlist or genre using the steering wheel controls and integrated display screen. Full colour screen satellite navigation integrated into the dashboard is available as an option. Peugeot Connect Navigation (RNEG) also includes Bluetooth connectivity.

The fascia panel of New Partner incorporates an easily accessible glove box behind the steering wheel and a storage drawer is available under the driver's seat.

PEUGEOT AND THE ENVIRONMENT

Protecting the environment and preserving the planet are the greatest challenges we face today. For many years Peugeot has been innovating to bring down the fuel consumption of its vehicles, reduce particle emissions and also receive concrete reductions in CO₂ emissions. The technology of the Partner's different HDi engines offers both low fuel consumption and a reasonable level of CO₂ emissions.

FLEXIBLE AND DYNAMIC DRIVING

All of Peugeot's engine and road holding know-how has been incorporated into the New Partner. By offering the choice of one petrol engine and three diesel engines, New Partner gives you the opportunity to find the vehicle that exactly matches your needs, whatever your business.

1.6 litre 16v 90bhp

Dynamic to drive yet set up for great economy at lower speeds, this new engine offers a winning compromise between performance and running costs.

1.6 litre HDi 75bhp

The entry level model in the diesel engine range, this unit comes with second generation "Common Rail" injection and offers remarkable economy to cost-conscious businesses.

With plenty of torque available from the very lowest engine speeds, this engine combines very good load carrying capabilities with reduced running costs.

1.6 litre HDi 90bhp

The heart of the range, this efficient diesel engine offers excellent torque whether you're in town or on the motorway. Always a capable performer, it offers liveliness when moving off, good acceleration through the gears, and a dynamic drive regardless of load.

1.6 litre HDi 90 FAP

Equipped with a FAP Particulate Filter, this engine offers improved fuel efficiency and lowers the CO₂ emissions to 140g.

FUEL CONSUMPTION AND EMISSIONS

Performance		
Engine	Max. Power (BHP / RPM)	Max. Torque (Nm)
1.6 16V 90 bhp	90 / 6000	132 / 2500
1.6 HDi 75 bhp	75 / 3500	185 / 1750
1.6 HDi 90 bhp	90 / 4000	215 / 1750
1.6 HDi 90 bhp FAP*	90 / 4000	215 / 1750

Fuel Consumption (MPG)				Emissions
Engine	Urban	Extra-urban	Mixed	CO ₂ (g/km)
1.6 16V 90 bhp	26.2	41.5	34.4	195
1.6 HDi 75 bhp	40.4	55.4	48.7	153
1.6 HDi 90 bhp	40.4	55.4	48.7	153
1.6 HDi 90 bhp FAP*	44.0	58.8	53.3	140

Figures valid for L1 and L2 versions.

*1.6 HDi 90 FAP engine only available in L1 versions.

INTELLIGENCE THAT PROTECTS

New Partner is a small van for today's business user, offering a comprehensive range of modern equipment designed to improve the safety of both driver and passengers.

Anticipation

• Front impact

New Partner has been designed to protect driver and passengers. In the event of front impact, the integrity of the passenger compartment is assured by three impact absorption structures; lower, medium and high. These are designed to gradually absorb impact energy, channelling it from the front to the rear of the vehicle.

• Side impact

In the event of side impact, energy is channelled and absorbed through the vehicle's subframe.

• Rear impact

New Partner is designed to deflect and absorb energy in the event of rear impact thanks to crumple zones at the rear and subframe components which help to contain the impact to the rear of the vehicle.

• Rollover

The passenger safety cell is safeguarded in the event of rollover thanks to the vehicle's exceptional body strength.

• Protection of pedestrians

Vans often spend a lot of time in towns and cities, so pedestrian safety is high on Peugeot's agenda. The structure of New Partner has been designed to reduce the effects of an impact with a pedestrian as far as possible.

• Steering column

The steering column retracts over a distance of 40mm in the event of collision to provide maximum safety to the driver.

• Restraint systems

All the seats in New Partner are equipped with three point seat belts. The belts fitted to the front seats are height-adjustable, with pretensioners and force limiters (please note that if the Multi Flex passenger seat is fitted, the three point seat belt for the central seat does not have these features).

• Fasten seat belt indicator

An indicator and an audible alarm warn the driver if their seat belt is unfastened.

• Head restraints

The backrest of the seats and head restraints have been designed to follow the movements of the body in the event of impact, thereby reducing as far as possible the effects of collision.

• Airbags

In addition to the driver's airbag, New Partner can be equipped with an optional passenger airbag which protects either one or both front passengers, as well as side airbags.

• Cruise control/speed limiter

Available as an option, the cruise control lets you maintain a constant speed without having to use the accelerator pedal, while the speed limiter restricts the vehicle to a speed pre-programmed by the driver. People who drive vans often keep valuable tools, equipment or goods in them. New Partner has also been designed to offer peace of mind with high levels of vehicle protection and security.

• Central locking

New Partner is equipped with central locking as standard, plus there's a locking button located in the cabin. And once the vehicle exceeds 6mph all the door locks are activated automatically.

• Selective locking

If you wish to leave the cab unlocked while the cargo area remains securely locked, you can do this by using the button located on the fascia panel. The status indicator on this button also tells you whether the load space is open or locked.

• Remote control

A three-button remote control flip key is available as standard on the SE version or as an option on the S version. It lets you lock or unlock the vehicle, or the load space only.

- **Alarm**

An alarm system is available as an option.

- **Braking**

With two ventilated discs at the front (283 mm) and two non-ventilated discs at the rear (268 mm), New Partner offers high performance braking under all road conditions.

- **ABS**

The anti-lock braking system (ABS) helps you to control the vehicle during emergency braking by preventing the wheels from locking.

- **EBFD**

Electronic Brake Force Distribution (EBFD) controls braking wheel by wheel to maximise braking performance, particularly when cornering.

- **EBA**

Emergency Brake Assist (EBA) helps reduce stopping distances to a minimum by amplifying the pressure applied to the brakes.

- Automatic activation of the hazard warning lights If you have to pull over sharply, the hazard warning lights will come on automatically to warn vehicles behind you.

- **ESP***

Available as an option, ESP (dynamic stability control) anticipates potential under- or over-steer and helps you to maintain control of the vehicle's steering.

- **ASR+ Grip Control***

Available on L1 HDi 90 versions, ASR+ Grip Control* is an intelligent traction control system that adapts to maximise grip and maintain traction over snow, mud and sand terrains.

*Optional Theft protection

COLOURS AND TRIMS

PEUGEOT AND YOU

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

PEUGEOT WARRANTIES

As well as the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer come with a free, optional additional year of Warranty through the Peugeot UK Dealer network. The mileage limit on this additional Warranty is 60,000 miles (100,000 miles for Boxer vans excluding Motorhomes and other converted vehicles) from first registration. At the end of the 3 year Warranty period (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 Year Anti-Perforation and 3 Year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

PEUGEOT ASSISTANCE

All new Peugeots come with 12 months Peugeot Assistance – our breakdown assistance service. This covers all incidents involving vehicle-based faults for you and anyone else driving your car with your permission. It is available 24/7, 365 days a year. Peugeot Assistance includes European cover, homestart,

roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

PEUGEOT SERVICE CARE

Peugeot vehicles benefit from extended service intervals of up to 20,000 miles or 2 years (12,000 miles for 1.6 HDi diesel ; 24,000 miles or 2 years on Boxer, 10,000 miles or 1 year on 107). Please refer to the maintenance book for details of the service intervals for specific models and vehicles operating in arduous conditions. Finance – Let the Specialists help. Peugeot Financial Services offer a number of flexible finance plans that make owning a new Peugeot easy. We specialise in car finance and can provide you with choice, convenience and flexibility directly through your local dealer. Written quotations are available on request from: Peugeot Financial Services, Quadrant House, Princess Way, Redhill, RH1 1QA. Over 18's only, a guarantee may be required.

PEUGEOT INSURANCE

Peugeot Insurance has been designed specifically for Peugeots and offers tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your car, using only Peugeot original parts. Plus we'll give you a courtesy car while yours is being repaired (subject to availability when you use an approved repairer). When the time comes to renew your insurance cover, why not try Peugeot Insurance?

You can call Peugeot Insurance for a quote on 0870 0240 206.

Lines open 8am-8pm weekdays, 9am- 5pm Saturdays. Max call charge from a BT landline is 8p per minute. Calls from other networks may vary. Calls may be recorded. Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.

PEUGEOT AND THE ENVIRONMENT

Our website has full details on all Peugeot products, and offers available in the UK. You'll also find information about our environmental and recycling policies.

The information contained in this brochure is based on the data and images available at the time of printing. Some feature combinations may not be available in the UK. Also, some photography may feature vehicles which are left hand drive. As part of our policy of continuous specification improvement, Peugeot reserve the right to modify technical equipment, the options available, and colours at any time. For full specification ask your Peugeot Dealer, or click on www.peugeot.co.uk. Please note that print and photographic processes used in the creation of this brochure may alter the depth and tone of the colours shown. This brochure is not a contractual document or offer of sale. The details in this brochure cannot be reproduced without the expressed authorisation of Peugeot.
